## DISCUSSIONS

Decision taken will be circulated.

### 1.4. ADOPTION OF THE AGENDA OF 29 AUGUST 2014

A member of the SA Shippers Council requested that the matter of representation by Mr Fanie Pretorius be discussed at the meeting. A letter was sent to the Minister stating that the Shippers Council felt that Mr Fanie Pretorius should not represent them at the PCC meetings as Mr Pretorius has resigned from the SA Shippers Council.

The Ports Regulator suggested that Operation Phakiso be added to the agenda going forward. The Agenda of the 29 August 2014 was motioned for adoption by Mr Chris Stretch and supported by Mr. Fanie Pretorius.

The Port Manager requested that clarity be created regarding the representation of the PCC meetings due to the fact that he has resigned from the SA Shippers Council. Mr Motlothi requested through the Deputy Chairperson that Mr Pretorius give some clarity for the meeting to understand. The Secretariat responded by explaining that the Nomination and Election process according to the PCC.

Mr Bhikraj then questioned whether an individual is allowed to represent a sector if he is no longer formally employed in that industry and does the individual still represent the rest of the Port Users in the particular constituency. Mr Webb responded that due to the limited number of seats on the PCC it was then agreed that the SA Shippers Council would fall with the constituency and be represented at the PCC. Mr Pretorius advised that if it was required of him to be excused from the meeting he would leave but take the matter up later.

Ms Bishenden said that internal issues in a particular group should not affect the membership of the PCC and also felt that Mr Pretorius should not be asked to leave the meeting as he would do a disservice to his constituency. Mr Fakir advised that the PRSA has received communication from a particular organisation and it is not the Durban PCC meetings responsibility to sort out this matter but as the communication has also been sent to the Minister it should be sorted out on that level.

The house agreed that Mr Pretorius be part of the meeting as the PCC does not have the authority to make a decision and the meeting should continue. The Deputy Chairperson further stated that Mr Pretorius is representing not only the SA Shippers Council but other industries in the same constituency and the matter of representation should sort it out internally.

The matter of representation will be addressed and responded to separately.

The Agenda was proposed for adoption by Mr Chris Stretch and seconded by Ms Bridgette Bishenden.

### Declaration of Interest

The Secretariat advised that the Declaration of Interest forms will be circulated to be completed by all and handed back after the meeting.

### 1.4.1. ADOPTION OF THE MINUTES OF THE MEETING 29 AUGUST 2014

The following amendments were made:

Page 4: Item 1.3.7.1 – amendment of surname to read “Ms Bridget Bishenden”.

Page 11: Item 3.5 b – to read “multi-year process which made allowance for annual amendments.”

Page 11: Item 3.5 f – Spelling of the CEO PRSA to be amended to “Mr Fakir”

The Minutes of the 29TH August 2014 was motioned for adoption subject to the agreed amendments.

### Action 1: Matter regarding representation at the PCC will be dealt with and responded to separately.
### SECTION 2: EXTERNAL PRESENTATION

2.1 None

### SECTION 3: MATTERS ARISING FROM THE MEETING OF 13 NOVEMBER 2014

#### 3.1 Update on Navis

- Mr Pretorius gave update with regards to the Navis system.
- No backup for Navis, a commitment from TPT that when the system is upgraded, there will be backup and the system is being closely monitored and it will be part of the TOPS KPI measures.
- Referring to the previous Minutes the Ports Regulator said that on the agenda it says that Mr Pretorius will discuss this matter with Mr Bhikraj. Mr Bhikraj advised that when the terminal submits the quarterly report it would indicate the down time of the Navis system. The discussions between Mr Pretorius and Mr Bhikraj has not discussed.
- Mr Bhikraj gave feedback on how this affects the KPI’s.
- This matter will be added to the discussions.
- The Secretariat said that there is two issues one is the fact that when it was initially raised was about the backup system and the second issue was to ask Mr Bhikraj if this could be added to the KPI measures.
- Matter will stay on the agenda and Mr Bhikraj said that this would have to be discussed and also the risk or it might be a licence issue but if this is added as a KPI measure would it result in the fact that there will be a back-up system immediately.
- The Port Manager suggested that TPT be invited to do presentation regarding the Navis system as TPT has a plan regarding a system and the presentation will address most of these issues.
- An invitation will be sent to Mr Mark Witten and Ms Deidre Ackerman to do a presentation regarding the Navis system and the way forward.

#### 3.2 North Quay - berth deepening plans

- It was reported that there was an issue with the EIA and assistance from the stakeholders was requested.
- Maintenance of depth that has just been discovered. TNPA has been in discussion with SASOA. Some of draft has been reduced for safety. TNPA was working on the draft issue.
- Feedback will be given at the next PCC meeting.
- Mr Pretorius said that the industry is in ongoing discussion with TNPA. The matter will be discussed with TNPA as per protocol before it is further discussed with TNPA.
- Mr Fakir asked when the EIA was applied for and what was the latest correspondence from the Authority.
- Mr Khulekani Xaba replied that the application was made over a year ago with the Department of Environmental Affairs. The report was supposed to be completed by June and then delayed to October but the report or feedback has not been received.
- The PRSA requested that the document be shared with the PCC before the 4th Quarter PCC.
- The Port Manager will discuss this matter with the Chief Harbour Master.
- Mr Bhikraj said that it was not uncommon for EIA process takes one to two years which results in the increase of cost which means that the Port Users will have to pay for it therefore it would be in the best interest of all to give support to this project.
- Feedback will be given at the next PCC meeting.

**Action:**

- The stakeholder is requested to give input into the EIA process.
- TNPA will give feedback at the next meeting with regards to the draft issue.
- The EIA document will be shared with the meeting prior to the 4th Quarter PCC for information.
